## Put More Attitude Into Your Fluid Handling Operations. With world-class Wastecorp quality to pump the toughest liquids.

If you want to improve fluid transfer productivity at your train station, marina or campground, check out Wastecorp's powerful trolley style electric or gas powered honey wagons. This honey wagon series is designed to maneuver through tight station platforms, docks or narrow paths with all the tools you need to empty RV or marine wastewater.

The standard electric diaphragm pump system includes the industry leading 2", 2FA-EC Mud-Sucker Diaphragm Pump and a 25 ft. crush-proof hose and attachments (longer hose packages are available for transportation authorities).

For assistance in selecting the right Mud-Sucker honey wagon for your facility contact Wastecorp today.
