

PUMP OUT CADDY

HW-1.5FA-H-25-C
HW-2FA-H-25-C

FEATURES

Available with a 1½" or 2" connection

Light weight aluminum frame

25 gallon tank

Sludge Sucker manual diaphragm pump (the toughest in the industry)

Your pump out caddy ships complete with all the hoses and attachments you need to start pumping.

GREAT THINGS REALLY DO COME IN SMALL PACKAGES.

The Sludge Sucker pump out caddy, featuring Sludge Sucker manual diaphragm pump technology, is a complete waste containment system. The Sludge Sucker caddy pump out system is used for locomotive restroom pumping, marine bilge pumping, waste oil collection, biodiesel applications and self serve campground pump stations. You get everything you need in the box to start pumping fast.
