## Sample Wastecorp Trash Flow Installations

---

---

### **Detroit, MI**

---

Detroit Water and Sewerage Dept.

Model: Trash Flow trailer mounted TFCC-4MT, self priming centrifugal pump with 33 hp Deutz diesel engine

Volume of wastewater transfer: Up to 740 GPM

Centrifugal pump application: Multipurpose, manhole dewatering, flood control

---

### **San Diego, CA**

---

San Diego Zoo

Model chosen: Trash Flow TFC-3x3, self priming centrifugal pumps

Volume of wastewater transfer: Up to 460 GPM

Centrifugal pump application: Circulation pumps for bear pond exhibit

File Photo

---

### **Vestal, NY**

---

Binghamton-Johnson City Joint WWTP

Model: Trash Flow self priming centrifugal pump TFCC-3F, with Lovejoy flex couplings and steel, skid mounted base

Volume of wastewater transfer: Up to 460 GPM

Centrifugal pump application: Basin drain pump

File Photo

---

### **Zvishavane, Zimbabwe**

---

Diamond Mine

Model: Trash Flow self priming centrifugal pump TFCC-8M, with SAE 1020 wear plate, 70 hp 1900 RPM, Deutz air-cooled diesel engine

Volume of wastewater transfer: Up to 2700 GPM

Centrifugal pump application: mine wastewater, tailings content, dirty water
